

MATH 5003 MADE EASY TESTIMONIALS

I took Math 5003 today and got a perfect score! Wow! Used your entire book. I think you fully covered everything!!! I did all lessons, practice problems and tests. This was the only math resource I used.

Kim Felton-Canfield

Hello, just wanted to say thank you so so much for the study guides. Last time I took the Math 5003 I got a 145 and I just passed with a 181. Also I used the others for the praxis math core and I took it 5 times and passed the 6th time after finally getting your study guides. They were seriously a life saver. Thanks so much! Autumn

I was introduced to Dr. Gardner's books, after multiple failed attempts to pass PRAXIS core. Her "PRAXIS Core Made Easy" helped me pass my test with an 170. Therefore, I didn't hesitate to buy the "Math 5003 Made Easy". This book helped me pass my PRAXIS II, the first time, with an 180! Both books live up to their names and makes each content area easy. In addition, each area comes with a practice test. Furthermore, she gives you five practice test, which includes all of the material. As you can see, I could go on and on about these books. **These books are well worth the investment if you want to pass your test the first time!**

Alisha F.

I took subtest Math 5003 today and scored a 200!! Thank you so much for this book. You've made math so much easier to understand now that I went through your book. I woke up and said today VICTORY would be mine and lo and behold!!! I can consider myself good at math now because of your book.. And I can finally say, " I LOVE MATH". I couldn't do it without having your study guide. Studied once I purchased it and I did well thanks to you!! You deserve an award....

Ania Branch

I just wanted to send you a quick message, and a thank you for your study guide you created for the Praxis - Math 5003. This was the only section of the Praxis I really struggled with finding a study guide that really covered the materials I needed to know. I live in Colorado and needed a 157 to pass, the test I took prior to purchasing your study guide, I made a 155, I took the Praxis yesterday and made a 181! I honestly cannot thank you enough for making such a wonderful, easy to follow study guide! I will be telling all of my friends to purchase your study guide in the future! I was offered a job to teach Kindergarten in the fall, but needed to pass the math portion before they could issue my contract. I wish I could give you a big hug, because honestly thanks to you and your study guide, I will now have my dream job teaching Kindergartners in the fall. Have a wonderful summer, and happy 4th of July to you and your family! Thanks again!

- Mallory Banks

I wanted to say thank you for your book!! I took Praxis 5003 this past Saturday and I PASSED!!! I have been telling everyone about your books that have been struggling with the math parts. Everyone that I have told and they have gotten the book has passed!! Your book is the only book needed when studying for the math praxis!! I will continue to tell everyone about your books!!

**Thank you,
Angela Jenkins**

After purchasing your electronic book for praxis 5003 Math in July and going through all the material I took the praxis this morning and score on the screen said 165. Thank you Thank you. I am telling all that I know who needs help about your book.

Donyell

I am forever grateful to you for writing your amazing math book. I finally passed the praxis II math test on my 4th attempt. I increased my score from 125 to 168!! This is due to buying your book!! (And a lot of prayers to the lord above.) Thank you, thank you, thank you.

With sincere thanks and gratitude,

Deborah Bauer

I am writing this testimonial because I have just purchased your book Math 5003 Made Easy. A few days ago, I took the Math portion of the Content Exams (5003) and made a 155. I need a 157 to pass. I know it was only two points, but I was still discouraged none the less. I began searching the internet the very next day with the hope that I would find a study guide written by you because I had faced a similar situation when taking the Praxis I Math exam. I had taken the Praxis I exam several times and was still not able to pass. I found you on Google and your study guide was THE best study guide I had ever used (and I had used several). After going through each tutorial, my final score increased by 30 points which put me well above passing! I knew if I could find you again, I would pass my next test with flying colors as well.

Math 5003 Made Easy is everything that I knew it would be and more! This book has given me back the confidence that I had before. You have taught me how to think about the problems and solve them quickly and efficiently. I knew when I received the score for my first attempt of the Math 5003 exam that speed was my main concern but no other study guide addresses this issue. I would like to take this opportunity to thank you for skillfully explaining how to solve each type of problem on the test and for covering all of the areas of Math that students are tested in. I now know that I have the exact tool that I need to not only pass the Math 5003 exam, but to perform even better than I ever have before in Math! I will be retesting in a couple of weeks and I cannot wait to share my results with you!

Hi Dr. Gardner,
I just wanted to say that I used your Math 5003 book to study and I passed it!! I also used your Core Math Made Easy and passed that test as well. I am finally on my way to becoming a certified teacher. Thank you for all that you do. You really did make the test easy to understand and pass.
Barbara

I just wanted to let you know that I took the Math 5003 this morning and I needed a 157. The previous time I took the exam, I scored a 155. After using your study materials, I earned a 192 on this next test!!!!

Thank you!!! Thank you!!!! Thank you!!!

Lynn Haynes

Elementary Education

I just had to let you know that my daughter passed Praxis 5003 (MATH) using your study book. She had previously invested in other study books, which did not come close to yours for preparation for the test.

Thank God and again thank you.

Rosemary

I used your book to help me prepare for the math part of praxis ii- this was the only part that I had left to pass; math is NOT easy for me - I took the exam this morning and I passed!! I am now a senior and will be able to start my residency in the fall!

Thank you so much for this helpful study book!

-G. Collins

I wanted to send you an email because I bought your Praxis 5003 made easy book about four weeks ago when I did not pass my Praxis 5003 math portion. It was the last portion and I wanted to pass so badly. As a child I had a history of being so bad at math that I was put in Title class. My first score was a 155 on the Praxis math and I felt terrible. After reading the reviews for your books, I bought the 5003 math made easy and studied every section. I finally took the test again 21 days after the first try and ended up getting a 175!! I am so happy, relieved and thankful to you! You are truly a blessing and you had a way of teaching me math which I have never been able to catch onto before. I wanted to say thank you from the bottom of my heart. I hope that one day I can be half the teacher you are! Much respect and thanks!

Deserea Morse

I wanted to share that I PASSED the 5003 test. The passing score in NJ is 157, and I got a 186! Your books make it so easy to understand the math problems.

Thanks again!!

Sue

***I took the 5003 test Monday and just received my score: 198! Thank you for making a wonderful study guide that no doubt helped me pass with ease.
Kathryn Green***

I purchased your Math 5003 Made Easy this past summer and recently passed the test! Thanks you so much! The information that you provided was EXTREMELY helpful. That was amazing to me! Thank you so much for such a helpful Math 5003 Made Easy Study Guide!

Katheleen Arceneaux

i took my math 5003 exam today and guess what - i passed it with the highest marks 183 it is all because of your book you are meant to be an angel for me i took it 4th time today and it felt it if i could find your book before it could pass it in my first attempt. I can't Thank you enough for what your book has done to me the exam was 100 percent similar to your book and practice questions. Please accept a Big and Humble Thanks from my side. May God make things as easy for you as you make for other people there is no race or religion superior in his eye more than the Humanity. And you one of the example of that. I cannot express what i am felling right now i hope i would justify with my words. Once again a Big Thank You. May God be with you in all Thick or Thin. Thanks a lot.

zainab mir

I am writing to you to say thank you so much for making this book. I took the praxis math 5003 three times and failed them each time by a few points. I thought I was never going to pass. I had purchased the study materials from the ets website which I didn't find very helpful. I found your book and purchased it immediately. I studied everything that was in your book, and after my 4th attempt I passed with a score of 197! I couldn't believe it. I feel that I am so much better at math now after going through your book. Thanks to you I am now able to start my student teaching in the spring semester. I am going to recommend this book to everyone I know!
Best,
Kristi Besanceney

**I PASSED the Praxis 5003!!!! Your materials were spot on and helped me tremendously. Thank you so much!!!
Nelida Agosto**

**I can't thank you enough for this product! At first while working through the lessons, I was a little skeptical I was making progress. By the time I made it to the sample test, I was flying through it like a champ! I couldn't believe it! I am not one to enjoy math and here I was UNDERSTANDING how to do surface area and word problems that would normally make my brain feel like exploding. The first time I took Praxis 5001, I passed everything but math. I needed a 157 and I made a 151 and this had to be passed for me to student teach. I studied relentlessly for a week and yesterday I passed 5003 with a 185! Thank you so much, I am so grateful for this resource!
Sincerely,
Raven Little**

I just passed math, science, and social studies ! Praise the Lord ! Thank you for all the notes and questions answered! Thank you MME math and Claire Perkins!

Passed the Math 5003 this morning! Huge thanks to the support of this group and MME! I am finished with Praxis exams! 🎉 YES!

Shelby Garren

Oct 25 · 👥

Finally passed 5003 (Math) today with a 175!! Trust me I know how bad it sucks to fail this exam. This was my fifth time taking it! I sat down with a friend and worked through MME this week. My last score was a 156 and all I needed was a 157. I went up 18 points!! I'm so glad to be finished with praxis exams!!! Good luck to everyone in this group, you WILL get it! Thank you for your help!

I took 5003 math this morning and passed with a 186!! Anyone taking this test. Use the MME math study guide. Spot On !

Amanda Murray Wood

[Jaime Molloy](#) it is Math Made Easy by [Lynn Gardner](#).

It is an amazing workbook that takes you through each section and then there are 5 practice tests. My test was A LOT like those in the book, just different numbers.

I used strictly Math Made Easy and it's the only reason I did well on the math! I scored a 170 and that's amazing for me because prior to using it I couldn't even add fractions.

 **Emily Walker**
I would recommend Math Made Easy. It's the best!

I just took math 5003 and passed with a 160!!!! This was my second time taking it. I studied with Math Made Easy and the test was very similar to that material! I just wanted to let everyone know how helpful MME was!

Leslie Gibson
I used MME. I tested yesterday. I passed. Things to know that was on my test decimal into fraction 1.7 was the decimal. Math made easy really prepared me.

4h · 🌐

I definitely recommend math made easy! I took 5003 yesterday and passed with a 194. I studied for about 2 weeks. I went through every lesson and problem and took each practice test twice. 5003 was very similar to the MME practice tests.

 **Ashley Neary**
Purchase Math Made Easy and complete each of the practice tests! My test was almost identical!!! My score went from a 137 to a 187!

Donna Hardy Watson
[Lynn Gardner](#) Great workbook! I have worked with lots of teacher candidates who ordered this resource with great success!

I am officially done with Praxis5001; I passed 5003(math) today!!!!!!!
 THANK YOU DR. Lynn Gardener for writing MME, your book truly made the 5003 easy. If anyone is struggling to take the math, please buy the MME book and also attend the group Tutoring class that she offers over a 4 week period, and trust me you will pass.

Ashley Mckinney

Math made easy!! The practice tests were just like the real test! I studied for about a week and made a 200 first try!

Tashalla Gomillion
 Math made easy helped me!!

Kenzie James
 Study math made easy. It was very similar to the actual test. I passed with a 193 with math made easy! You CAN do it! Keep pushing! Go through all the lessons, practice problems, and all tests and you will do great

Nail MA
 Math made easy helped me pass!! It breaks down each section of the test and gives you practice problems. At the end there are practice tests. I would mimic the test. So I would time myself and go and when I took the test I felt very ready

Katey Julian
 Math Made Easy it's very similar to the test. I took it last Saturday and scored a 191. I felt like was taking one of the sample test from the book. I did almost run out of time because I stayed on a problem to long, but I skipped and answer the easier questions. I did go and check the ones I wasn't to sure about.

Rosmery Soto Buchillon
 Best to study is MME book, I passed math 5003 with 189.

Jordan Gunn

MME is 100% your best study guide. I'm terrible at math and passed because of MME

India Baker Gold

Math Made easy increased my math score from 135 to 189. Highly recommend!

Patrice Patton Compton

Ps... I passed finally on the 3rd try because I finally used the MME!

Kylie Topey

100% recommend Math Made Easy!! Passed on first try and math is not my strong suit either!

Mandy Cotten

I failed it 3 times when I was using 240 Turing. I didn't like the material as it seemed to be an overload of material. Use Math Made Easy, it's the best.

Abby Silvers

I took it a couple weeks ago and studied the NavaEd book, but I failed. I'm currently using Math Made Easy to study for it again. I feel like it's already helped me so much.

Lauren Peters

Math made easy was amazing. I was most nervous for the math and it ended up being my easiest test. I got a 179 using MME and also my navaed!

Patrice Patton Compton

I took it twice and finally broke down and ordered MME and passed on the third try. Questions are VERY similar to the ones on the test and the practice quizzes really helped me get faster.

Jennifer Gandy

Math made easy is the best. I just scored a 191 after using it. Just do all the lessons and all test included.

Ashley Neary

use math made easy!! study the practice tests!! my test was almost identical to the practice tests on math made easy!

Amber Church

Math made easy! It gives you lessons, practice problems, and practice tests. It comes with a key and explains how to get the answers! I think it was \$30 for the digital download!

Lorie-Ann Hause

I also failed the first time and I am usually great at math . I also used Khan the first time and went on to order Math Made Easy from MGMtutoring.com per recommendations from this group for core math (5733) and retook it jumped from 138 to 180. I felt so good about the book that I just ordered the second book for Content Math (5003)

Math Made Easy is everything you need. I wish something this comprehensive existed for each of the exams. It literally covers everything you need to know in one place.

Candace Hargrave

Get math made easy! SO WORTH IT. I would have NEVER passed without it. I studied it for a month or so and ended up passing with a very high score. Before that, I didn't know how to do more than half the stuff on the test because I'm so so bad at math

Thank you so much for making the 5003 so easy to pass. I just passed my Praxis Math with 163. Thank you again.

Joana

I bought your Math Made Easy book and it helped me sooooo much! I passed my praxis test with a 180 the first try! Thank you so much for creating this book!

Hailey Rush

Radford University

I had purchased the MME book a couple of months ago. I just wanted to thank you for creating these books/ studying guides!!! They were extremely helpful!!! I passed the math praxis! Thank you for taking the time to help students like me who have always struggled with math. From the bottom of my heart thank you for what you do!!

Kind regards,

Marie Molinaro

I just want to say thank you so much! I have been unable to pass praxis math for years now and I finally found your amazing book. God bless you. THANK YOU. This will change my life. THANK YOU!

Evony Hernandez

Thank you! I failed the math praxis exam the first time (made a 150 and needed a 157). After using the book, I made a 200 so thank you for making such a great resource!

Megan Thibodaux

I wanted to email you to thank you for creating MME. I made a 199 on my 5003 Praxis exam. If it was not for MME, no way I would have done that well.

Thank you so much!!

Brittany Ehlenberg

I just wanted to let you know your book was extremely helpful. I passed the praxis 5003 with a 181! Thank you so much for having this resource available! I highly recommend it.

All the best,
Veronica Matullo

I just wanted to let you know I passed the praxis using your book! I went from a 149 to 180!! Thank you for this awesome resource!!

Monica Ludwig

I just wanted to say thank you for creating such a wonderful book! It made studying for my Praxis 5003 test so easy. I passed my test and am so happy I found your book! Thank you for helping me succeed.

**Thank you,
Amanda**

I took the test this morning and I passed with a 177! This was my third time taking it. I found that your practice tests were harder than the actual test. Thank you so much for helping me pass!! :)

Kayla Cummings

Writing to let you know I got a 199 on my test!!! I am so bad at math and your math made easy book helped me tremendously!!!! Thank you!

Breanna Chambers
